PROFILE

Economics graduate and data analyst with hands-on experience cleaning, organising and checking data, and turning it into clear reports and dashboards. Comfortable with Excel, SQL, Python and Power BI, and careful with detail when working with records and accuracy targets. Looking for data analyst, MIS, data entry or data operations roles where accurate data supports better decisions.

SKILLS

Data cleaning	Python (pandas, NumPy), OpenRefine and GREL, Excel Power Query
Analysis	Excel (lookups, pivot tables, what-if analysis), Stata, Google Sheets
Databases	SQL (PostgreSQL), Supabase, database design and ERDs
Visualisation	Power BI dashboards, Excel charts
Records	Data labelling and QA, document verification, account reconciliation, JFMIS
Languages	English (fluent), Swahili (native), Spanish (basic)

EXPERIENCE

Feb 2026 – Present

Intern, Admissions and Academic Records

Africa Digital Media Institute (ADMI) · Nairobi

- Process student applications and admission records, checking each file is complete and accurate before an offer is made.
- Enrol admitted students into the right programmes and intakes, and keep their records up to date in the student information system.
- Manage academic transcripts, verifying results against system records for accuracy and completeness.
- Use Excel and Power BI to organise enrolment data and cross-check student details across intakes.
- Answer applicant and student enquiries about admission requirements and documents.
- Support records preparation for key academic milestones, including the 2026 graduation.

Nov 2025 – Sep 2026

Private Contractor

CloudFactory · Nairobi

- Data labelling and quality assurance (QA) on an AI event- and risk-detection platform: labelled and validated real-time alerts against public sources such as social media, blogs and news sites for accuracy and timeliness.
- Worked fixed full-time shifts to detailed labelling and QA guidelines and accuracy targets.
- Completed a three-week, full-time onsite training programme and passed the final assessment before moving into production.

James Mwai

Data Analyst · emmjayjames@gmail.com

EXPERIENCE (CONTINUED)

2023 · 3 months

Finance & Accounts Attaché

Principal Magistrate's Court · Karatina

- Reconciled revenue, deposit and expenditure accounts and tracked cash bail deposits in JFMIS, in line with judicial financial regulations.
- Kept case records in the Case Tracking System, prepared court tax filings for KRA and supported procurement and budget planning.

Aug 2022

Election Clerk

Independent Electoral and Boundaries Commission (IEBC) · 2022 General Election

- Verified voter identities, managed ballot issuance and followed electoral procedures with the presiding officer.

SELECTED PROJECTS

Python · OpenRefine Power Query

Data cleaning in three sectors

Cleaned farmer, mobile-loan and supermarket datasets: 300 sales de-duplicated to 285, 55 product spellings merged into 22, each with a cleaning log and report.

PostgreSQL

Hospital database

Business rules enforced with constraints and a trigger, plus eight reporting queries using CTEs and window functions.

Supabase · SQL

Clinic database with row-level security

Patients see only their own records while doctors manage all, checked with five security tests.

Power BI

Telecom customer churn dashboard

Shows who churns and what they have in common, so a retention team knows where to focus.
